25th Anniversary ECAWA Conference 2002

REGISTRATION FORM

Welcome to the 25th Anniversary
Conference of the Educational
Computing Association of WA.

The theme this year is

'The Need for Speed?'

With a choice of over 30 sessions
focusing on the pivotal role of ITC in
classroom practice, delegates can
learn:

- How the speed of information transmission might affect learning.
- How educators are coping with the speed of change.
- Whether the need for speed is distracting us from other core business.
- How technology can help us cope with the speed of change.

We welcome you to join us for this
weekend of practical professional
development and networking - sharing
information about IT in education in a
relaxed and social environment.

KEYNOTE SPEAKERS

Daniel Ingvarson BA(Hons), Grad Dip (Computing)
Executive Director, myinternet Limited

myinternet Ltd has been delivering online services to the K-12 market throughout Australia since 1993. Developing software to meet the needs of online content management through portal based computing in an education environment, myinternet has identified what they consider to be the next generation of Internet software tools for education systems. After completing a thesis on the use of the Internet in non-computing environments Daniel has become head Internet researcher at Murdoch University. Daniel is involved in the policy aspects of the network and is a published author in this area. From working on one of the first Internet indexes when there were only 67 identified Internet sites, until now, Daniel has been involved in landmark events of growth of the internet.

John Treloar
Manager, Macromedia—Asia Pacific

John has held a number of senior executive positions with global high technology companies managing aspects of their business in Australia. Now the manager of Macromedia's Asia Pacific operations, John is well placed to inform delegates of the trends and directions in content development and delivery technologies on the Web.

Macromedia Inc. is a strategic IT supplier to customers in the business, government and education markets. Macromedia provides an integrated family of tool, server, and client technologies which enables the delivery of a wide range of Internet solutions from web sites to Rich Internet Applications across platforms and devices.

eLearning and the internet are inextricably linked and since teachers have always been content developers, contemporary teachers need to understand the issues related to content development and delivery in a web enabled environment.

Josie Hopkins BEd, MEdSt (Computing), MACE
Education Manager, SchoolKIT Australia

With over 14 years experience teaching physics, general science and physical education, Josie now conducts inservice training sessions focusing on the integration of Learning Technologies across the Curriculum. An internationally sought after presenter, Josie is also a published author on the topic of Computers in Education. She is the founder and steering committee member of the first Australian *Computer Clubhouse* in Fitzroy. This is a not-for-profit centre for learning robotics and multimedia skills that targets migrant and underprivileged youth of innercity Melbourne. Josie's presentation will address the theme of the Conference, while attempting to provide concrete examples of some pitfalls, triumphs and possible directions for the future.

Michael Kleef
Technology Specialist, Microsoft Australia

Michael Kleef is a Technology Specialist working for Microsoft Australia, based in Perth WA. Michael's role is to provide technical readiness around Microsoft's infrastructure products such as Windows 2000, Active Directory, Exchange and Share-Point to the customer and partner community. He is especially passionate about PKI based smartcard technology and directory integration.

Michael will speak about the impact of these technologies in managing the use of ICT in schools and also showcase pre-production Tablet PC hardware being produced by the company which offers a form factor uniquely suited to educational applications.
