

Workcard**Level: 3****Strand: Chance and Data Substrand: Understand Chance****Least Likely / Most Likely**

Which is more likely?

The sun will rise tomorrow or someone will give you 1 million dollars?

Order these seven events from the least likely to the most likely

You will win lotto tomorrow
You best friend is an alien
It will rain tomorrow
You will drink something today
You will sleep tonight
There will be a power blackout
Your teacher will shave all their hair off tonight

Write a sentence about the likelihood of each event.

Write down 5 unlikely events.

Write down 5 events that are likely to happen.

Today Tomorrow and the future.

Some things are unlikely to happen today but are likely to happen in the future.

For example you are unlikely to have a birthday today but you are likely to have one in the future.

Write down 5 events likely to happen today?

Write down 5 events unlikely to happen today?

Write down 5 events likely to happen tomorrow?

Write down 5 events unlikely to happen tomorrow?

Write down 5 events likely to happen in the future?

Write down 5 events unlikely to happen in the future?

Reflection

What does it mean for an event to be likely?

What does it mean for an event to be unlikely?
