

**Workcard**

CD33W1

Level: 3

Strand: Chance and Data Substrand: Summarize and Represent Data

## What colour is that?

Create a table to record the most popular colour of cars. You will have to make some decisions about shades of a colour. Try to limit the number of colours that you have. Now go to the car park behind the canteen and record the number of each colour.

**Prediction**

*I think* \_\_\_\_\_ *is the most popular colour of car.*

**Table**

Now draw a graph to show the information

**Graph**
