Lets go to Hawaii?

Above is the Qantas route from Perth to a number of different cities. Make a table showing each city and the distance to it

Draw a time line and place each city in the correct place. Don't forget to watch your scale. How far is the farthest place?

Questions

Estimate how long it would take to fly from Singapore to Sydney if there was a direct flight. Why did you guess that?

How about from Singapore to San Francisco direct? that?

Why did you guess that?
