## Number of Visitors to the National Park

The column graph above shows the number of visitors to a National Park. Draw up a table and write down the number of visitors to the park each month.

Which months are the most popular?

Which Months are the least popular?

What is different between these months?

Where do you think the park is located? Give a reason

**Draw a column graph to display this information**

Day	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday	Sunday
Number of Students	630	650	640	580	620	1	0

Given that there are 700 students at the school write an explanation about the attendance of students on each day of the week.

*For example*

Monday there was 70 students absent because they got sick on the weekend.

**CREATE YOUR OWN TABLE OF INFORMATION  
AND THEN DRAW A COLUMN GRAPH TO DISPLAY IT**

### Reflection

What things should you include on a column graph?

Which is easier to read a table or a column graph?
