**Substrand:** Represent Location

## School Design (In Class)

Draw a draft map of the school. Show the location of all the building and paths in the main school area.

Show this draft map to the teacher.

Now form a group of up to 4

Compare you maps.

Choose the most accurate

The rule two lines across the map your group has chosen

Each person is to take a section to enlarge. On these enlargements add extra details. Your group's final map should be the size of 4 A4 pages.

## Directions

Give descriptions of how to get from your classroom to these locations.

- The canteen
- The Gym
- The library
- The nearest toilet
- The front office
- The Nurse's Office

Check with another person to see if your directions are accurate.

---

## Reflection

What was the hardest part about enlarging your map?

Do you think your map of the school is accurate? How would you improve it?

What did you learn about giving directions?
